

# Java Developer Course

## 3-Month Program: Java Essential

### Classic Learn - Java Programs (Progressive Curriculum)

**Duration:** 12 Weeks (Live Online, 5 Days/Week, 1.5 hrs/day)

**Format:** Live Lectures + Doubt Clearing + Assignments + Mini Project

### Modules

#### 1. Core Java (5 Weeks)

- Java Basics: Variables, Data Types, Control Flow
- OOPs Concepts (Classes, Objects, Inheritance, Polymorphism, Abstraction, Encapsulation)
- Arrays, Strings, Collections Framework
- Exception Handling
- Multithreading Basics
- 

#### 2. Advanced Java (5 Weeks)

- JDBC
- Servlets & JSP
- MVC Basics

#### 3. Mini Project (2 Weeks)

- Example: Student/Library Management System
- **Live Output:** Build a functional Java application

## 6-Month Live Program - Java Full Stack Developer

Includes everything from **3-Month Java Essentials** + Extended Full Stack Training

**Duration:** 24 Weeks (Live Online, 5 Days/Week, 1.5 hrs/day)

**Format:** Live Training + Projects + Assessments

### ◆ Modules

#### 1. Core Java (4 Weeks)

#### 2. Advanced Java (4 Weeks)

*(Same as 3-Month program - ensures strong foundation)*

#### 3. Frameworks (6 Weeks)

- Spring Core & Spring Boot
- Hibernate ORM
- REST APIs Development

#### 4. Frontend Basics (4 Weeks)

- HTML, CSS, JavaScript, Bootstrap
- Intro to React/Angular (Optional)

#### 5. Capstone Project (6 Weeks)

- Example: E-commerce / Banking Web Application
- **Live Output:** Ready for Java Backend / Junior Full Stack Developer roles

## 9-Month Live Program - Industry-Ready Java Full Stack + Internship

Includes everything from **6-Month Program** + Advanced Tools + Internship

**Duration:** 36 Weeks (Live Online, 5 Days/Week, 1.5 hrs/day)

**Format:** Advanced Training + Real-time Projects + Internship

### ◆ Modules

#### 1. Core Java (4 Weeks)

#### 2. Advanced Java (4 Weeks)

#### 3. Frameworks (6 Weeks)

#### 4. Frontend (6 Weeks)

*(All modules from 6-Month program included in full)*

#### 5. Advanced Tools (4 Weeks)

- Git/GitHub
- Maven (Project Build Tool)
- Docker Basics (Containerization)
- Unit Testing with JUnit

#### 6. Capstone Project (6 Weeks)

- Real-time Team Project (E-commerce, Banking, Social Media App, etc.)
- Agile Methodology + Collaboration Tools

#### 7. Internship & Placement Training (6 Weeks)

- Internship with Live Project Contribution
- Resume Building & LinkedIn Profile Optimization
- Mock Interviews & Placement Support

**Live Output:**

- ✓ Industry-ready Full Stack Developer
- ✓ Internship Certificate + Placement Support

👉 So in short:

- **3-Month** → **Foundation (Core + Advanced Java + Mini Project)**
- **6-Month** → **Foundation + Frameworks + Frontend + Capstone Project**
- **9-Month** → **Everything from 6-Month + Tools + Real Projects + Internship.**
